

Abdul Shadaab

+91-8888743341 | abdulshadaab4646@gmail.com | Nagpur, Maharashtra

Summary

Flutter Developer with 4+ years of experience building scalable, production-grade mobile and web applications across fintech, logistics, and on-demand platforms. Proven expertise in modular architecture, real-time data systems, BLoC/Riverpod state management, and Clean Architecture. Delivered trading platforms, drone rental ecosystems, and multi-service apps with measurable impact on user engagement and operational efficiency. Adept at full Flutter lifecycle - from UI design to App Store and Play Store deployment.

Experience

Delulu Ventures LLP | Nagpur, Maharashtra
Application Developer Consultant | 07/2026 - Present

Dozen Diamonds Pvt. Ltd. | Nagpur, Maharashtra
Senior Flutter Developer | 08/2024 - 02/2026

- Led UI restructuring of a complex trading platform, improving usability and accelerating feature delivery cycles
- Refactored tightly coupled architecture into modular components, reducing debugging effort and improving scalability
- Owned frontend implementation of algorithmic trading workflows, ensuring low-latency and reliable order execution
- Built real-time stock visualization systems, enabling users to analyze performance and make data-driven decisions
- Developed a Flutter Web broker dashboard to manage multiple client portfolios, significantly reducing manual operations

Soaron Aearospace Innovations Pvt. Ltd. | Hyderabad, Telangana
Product Developer | 09/2023 - 08/2024

- Built an end-to-end drone rental platform (Soaron Fly), enabling on-demand booking similar to ride-hailing systems
- Developed a pilot-facing app for booking management, pricing, and revenue tracking, improving operational efficiency
- Contributed to early product traction with live users and paid bookings, validating real-world usability
- Designed and developed a Laravel-based admin system to manage users, bookings, and payments at scale
- Implemented role-based access control, strengthening platform security and administrative workflows

Zithara Technology Pvt. Ltd. | Hyderabad, Telangana
Full Stack Developer | 05/2022 - 09/2023

- Engineered a backend-driven UI system, enabling dynamic feature updates without requiring app releases
- Built a configurable content wall system, directly contributing to monetization through flexible brand placements
- Implemented gamification systems (spin wheel & slot machine) to improve user retention in low-engagement regions
- Integrated heatmap analytics across the app, enabling data-driven UX improvements based on user interaction patterns
- Developed WhatsApp campaign automation with event-based triggers, improving user engagement and conversion funnels

Sikarwar Softwares Pvt. Ltd. | Gurugram, Haryana
Flutter Developer | 06/2021 - 05/2022

- Developed a scalable multi-service platform architecture supporting cab, delivery, and on-demand services
- Implemented car rental and logistics modules, driving a 15–20% increase in user engagement
- Built and maintained multiple production apps (customer, driver, merchant), ensuring stable and reliable operations

Self Employed | Nagpur, Maharashtra
Freelance Flutter Developer | 05/2020 - 06/2021

- Developed a BLE-based smart recycling app that tracks sensor data and rewards users, promoting sustainable user behavior
- Built an Instagram-style social platform with core social features, increasing user engagement and interaction
- Implemented real-time chat and camera filters, enhancing user retention and in-app activity
- Developed an end-to-end food delivery app, streamlining ordering and delivery workflows

Skills

Flutter, Laravel, Dart, PHP, GitHub, AWS, JavaScript, HTML, CSS, Firebase, Google Cloud Platform, PostgreSQL

Education

Nagpur University | Nagpur, Maharashtra
Bachelor of Engineering (BE) (CSE) | 06/2020

I majored in Computer Science, served on the organizing committee for events, and spoke about programming workshops at GDG Nagpur.

Set Kesrimal Porwal college | Nagpur, Maharashtra
Computer Science | 06/2016
Major in Computer Science
